FOR IMMEDIATE RELEASE

Fuda Faucet Commences Production at New Manufacturing Facility, Tripling Production Capacity

Yiyang, Jiangxi Province, China, - May 1, 2008 – Fuda Faucet Works, Inc. (OTC BB: FUFW) (“Fuda Faucet” or “the Company”), a Chinese company engaged in the business of developing, manufacturing, marketing and distributing mid-tier European style brass faucets, spouts and fittings to the international markets, today announced that it has completed the equipment installation phase at its new manufacturing facility and will start production at the new facility immediately.

In April 2008, Fuda Faucet started operations at its new manufacturing facility, located in Yiyang, Jiangxi Province, Peoples Republic of China. The new facility measures 229,703 square feet and is equipped with semi-automated, state of the art manufacturing equipment, and has employed 300 personnel. With the addition of the new operating facility, the company will increase its production capacity from 1.2 million sets per year to 3.5 million sets per year. The facility will produce the same types of products that are currently being produced at the rest of the company’s manufacturing facilities.

“We are very pleased to announce that we have started production at our new facility and the operation is running smoothly, as had been anticipated. Our capacity expansion is a direct result not only of our meeting the current demand for our products but also for the anticipated growth in sales as we seek to expand the market for our products in Europe.” said Ms. Yiting Wu, Chief Executive Officer of Fuda Faucet.
